Product Name:

Ballast hi-lo level lamp

Special Features:

6 watt, encapsulated, terminals 3 and 4 are 211 volts above ground, open circuit: ground plane to lamp spacing 0.25 inch max: for use with aviation t-5 lamps onl (ge-5106, sylvania fa6t5) : encapsulated material black fire retardetn epoxy resin: baseplate to be anodized per mil-8625a type ii: line current 160 ma min, 220 maximum at rated input voltage

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T316-c
