Hazardous Locations/environmental Protection:

Moisture proof and weatherproof

Overall Height:

6.750 inches

Overall Width:

4.875 inches

Lens Color:

Green and red

Mounting Base Length:

13.000 inches

Mounting Base Width:

11.000 inches

Mounting Base Height:

0.078 inches

Wiring Provision Method:

Individual wire

Illumination Directing Device Type:

Straight light conductor

Light Beam Motion:

Fixed

Err Default:

Err default

Light Function:

Directional signal

End Application:

Traffic light assembly

Voltage Rating In Volts:

800.0 dc

Mounting Method:

Bracket

Lamp Type Accommodated And Quantity:

8 flashtube

Lens Type And Quantity:

8 flat, round

Product Name:

Traffic light assembly monorail system

Special Features:

Item built to assembly no.-98 (without heat shield); tarawa class lha

Material:

Steel body

Shape:

Rectangular

Furnished Items And Quantity:

1 mounting kit and 1 spare parts kit

Terminal Type And Quantity:

8 cable w/connector

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A06300
