Vehicular Traffic Light - Page 1 of 2

View Online at https://aerobasegroup.com/nsn/6310-01-492-0959

Hazardous Locations/environmental Protection:
Moisture proof and weatherproof
Overall Height:
6.750 inches
Overall Width:
4.875 inches
Lens Color:
Green and red
Mounting Base Length:
13.000 inches
Mounting Base Diameter:
11.000 inches
Wiring Provision Method:
Individual wire
Illumination Directing Device Type:
Straight light conductor
Light Beam Motion:
Fixed
Err Default:
Err default
Light Function:
Directional signal
End Application:
Aegis wpn sys, ticonderoga class cg (47)
Voltage Rating In Volts:
800.0 dc
Mounting Method:
Bracket
Lamp Type Accommodated And Quantity:
8 flashtube
Lens Type And Quantity:
8 flat, round
Product Name:
Traffic light with heat shield
Material:
Steel body
Shape:
Rectangular
Furnished Items And Quantity:
1 mounting kit and 1 spare parts kit
Terminal Type And Quantity:

8 cable w/connector
