Usage Design:

Aircraft

Specific Usage Design:

Indicates when icing develops in the engine air induction system

Indicator Type:

Any acceptable

Design Type:

Nontripod mounting

Media Detected:

Ice

Special Features:

dimensions in in. 3.937 by 2.3750 by 1.500; voltage range 23 to 30 vdc; ambient temp range 65 to +165 f, 200 f for 5 min

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T394-a
