#### Mounting Type:

Panel

**Overall Length:** 

3.360 inches

## **Overall Height:**

0.640 inches

#### **Overall Width:**

1.000 inches

#### **Frequency Rating:**

Any acceptable

#### Mounting Configuration:

Mounting gasket per zz-r-765, class 2, grade 50, black; four screws, cres, phillips flat head captive

#### Signal Device Quantity:

6

#### Visual Signal Type:

Lamp

#### **Relay Box Mounting:**

Integral

## Voltage In Volts:

28.0

#### Phase:

Single

## Special Markings:

Ipl, ipl fail, record, rrs fail, loading, load fail

## Material:

Aluminum alloy, 6061, t6 and brass and plastic

## Material:

Aluminum alloy and copper alloy and plastic

## Surface Treatment:

Anodize and tin

## Surface Treatment:

Anodized, mil-a-8625, type 2, class 2 and tin plated

## Shelf Life:

N/a

## Unit Of Measure:

---

#### Demilitarization:

No

Fiig:

T104-a
