Maximum Voltage Rating In Volts:

24.0 dc

End Application:

C-135 flt sim refurb

Power Source:

External

Special Features:

Designed to provide a common coded signal to connected alarm via alarm extender module, model ae-30; actuation of the module is from a high going dc signal; actuation may also be manual; dual input actuation terminals are provided to facilitate programming; module contain solid state circuitry to supply output current at a controlled cadence of 120 pulses per min; these signals in turn can control up to five audible signal circuits

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A31700
