**Furnished Items:**

Consists of circuit board, transformer and switch

**End Application:**

Smoke detector

**Unpackaged Unit Length:**

15.000 inches

**Component Quantity:**

3

**Special Features:**

3.00 in diameter

**Functional Description:**

Produces beam of ultraviolet radiation to verify detectors in power plant

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A23800
