Terminal Type:

Connector, receptacle

Overall Length:

3.344 inches

Overall Height:

2.420 inches

Overall Diameter:

0.844 inches

Housing Material:

Plastic

Usage Design:

For fire alarm signalling

Operation Method:

Electrical

Special Features:

Slow whoop; slow ascending, low to high freq. Repeated; audible freq., low freq. 500hz, high freq. 1200hz; repetition rate 15 cy/min.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T104-e
