Frequency Rating:

60.0 hertz

Current Rating In Amps:

0.166

Action Type:

Vibrating

Design Type:

Round gong

Sound Chamber Type:

Gong

Sound Chamberdiameter:

10.000 inches

Loudness Level In Decibels:

91 db

Special Features:

Round black matte steel gong; alunium cover; national electrical class 1 rating, groups b, c, and d; 0.750 in. Hub

Material:

Aluminum alloy

Material:

Aluminum alloy

Supplementary Features:

Explosion proof

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T104-c
