Overall Length:

0.900 inches

Overall Width:

0.120 inches

End Application:

Mx peacekeeper missile support equipment

Special Features:

Flat piece with adhesive; 24.000 in. Lead wires; 100 ohm; sensor area measures 0.080 in. By 0.425 in.

Functional Description:

Attaches to motor and used to detect temperature

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T104-a
