Special Features:

Detector, smoke; construction- high impact engineering polymer; finish white; intelligent ionization smoke detector is a component of the signature series system; analog device senses changes in air samples from its surroundings; analyzes information and determines if an alarm should be initiated; continually monitors changes in sensitivity due to the environment and notifies the loop controller; two leds indicate status of detector- normal-green light flashing, alarm-red light flashing, standalone-green and red glows continuously; operating voltage 15.2 to 19.95 vdc, operating temperature 32 to 120 degrees f, relative humidity 0 to 93 percent

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T104-a
