Overall Length:

13.000 inches

Overall Width:

3.500 inches

End Application:

Nha p/n 9473900, an/usq-139a, to 31s9-4-99-1

Voltage Rating In Volts:

Between 10.5 dc and 28.0 dc

Coverage Length:

100.0 meters

Product Name:

Passive infrared sensor, model 864m1e

Special Features:

Field of view 10degrees horizontally and 28degrees vertically; pwr consumption 30ma; detector proelectric parallel opposed dual (pod) integrated sensor; heating pwr maximum 1w ac/dc; hold time 2 sec

Unpackaged Unit Weight:

3.000 pounds

Reference Number Differentiating Characteristics:

Asdifferentiated by repairs parts

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A513x0
