Terminal Quantity:

1

Terminal Type:

Stud

Hole Diameter:

7.0 millimeters

Mounting Type:

Bracket

Discharge Connection Type:

Threaded male

Overall Height:

279.0 millimeters

Current Type:

Ac

Mounting Hole/stud Quantity:

3

Environmental Protection:

Corrosion resistant and weather resistant

End Application:

Misc parts, navigation system (lcs 0001)

Housing Material:

Plastic

Operation Method:

Electrical

Mounting Bracket:

Provided

Projector Quantity:

1

Projector Flare Maximum Outside Diameter:

238.0 millimeters

Projectorlength:

286.0 millimeters

Product Name:

Re-entrant horn fog bell & gong system; inavy: bell, re-entrant horn

Voltage In Volts:

100.0

Special Features:

Material for housing is polyamide; bracket material is sst; finish is light grey (ral 7035); weight is 2.5 kg without transf. & 3.0 kg with transf.

Surface Treatment:

Painted

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T104-e
