Product Name:

Security inspection unit, x-ray

Special Features:

The rapiscan 515 is a dual energy, x-ray system , tunnel opening is 25.200 inch wide by 16.900 inch high, total length is 79.37 inch, by total width 32.720 inch, resolution 38 awg by 40awg typical, penetration 27mm steel, 29mm typical, material separation low z, medium z high z to 0.5z, cooling sealed oil with bath air, anode voltage 16kv rated operating at 140kv, tube current 0.7ma typical

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23800
