Overall Height:

483.0 millimeters

Overall Width:

362.0 millimeters

Housing Material:

Steel

Special Features:

Power supply: 120/240 vac, 50/60 hz; 5.4 amps at 27 vdc output; battery capacity up to 68 ah @ 24 vdc; three detection circuits; one manual release circuit

Supplementary Features:

Suppression focused control unit; listed for a wide range of suppression systems; sprinkler supervisory service; built-in class-a and class-b circuitry

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T104-d
