End Application:

Smoke detector, photoelectric; photoelect detector w/sounding base

Product Name:

Smoke detector, photoelectric; optical smoke detector

Special Features:

Fire detection system for marine and offshore applications in machinery and accommodation spaces; voltage: 14 to 22vdc, porm 5v; operating temp: -25 to 70 degrees c; quiescent current: 230 to 340 micro amps; alarm current: 10 to 60ma; manual call points ingress protection: ip 54; waterproof manual call points ingress protection: ip67; other detector ingress protection: ip43

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T104-a
