Operation Method:

Automatic and manual and test

Adjustment Method:

Screw

Voltage Rating In Volts:

230.0 ac

Maximum Wattage Rating In Watts:

2000.0

Coverage Width:

20.0 meters

Coverage Length:

12.0 meters

Features Provided:

Adjustable and detachable and mounting bracket

Product Name:

Motion detector

Special Features:

The detection ranges are achieved when the item is installed 2.5 meters high; horizontal detection is 240.0 degrees, and vertical detection is 180.0 degrees

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A513x0
