Current Type:

Ac/dc

Pressure Rating:

Between 75.0 pounds per square inch and 580.0 pounds per square inch

Terminal Thread Size And Series/type Designator:

1/2in npt

Loudness Level In Decibels:

147 db (c) & (a) on total and of 143 db (c) & (a) on 1/3 octave at 1 meter

Product Name:

Air horn

Special Features:

Thermostatically controlled; heated 120vac & 24vdc combination solenoid/manual valve assembly & horn body; fundamental frequency; 135hz; adjustable air choke included; imo audibility range 2 nautical miles; used on uscgc wagb 420 class

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T104-e
