Physical Form:

Freeze-dried powder

Protective Storage Feature:

Antineoplastic drug

Active Medicament Medicinal Strength:

1.000 mg doxorubicin hydrochloride per ml active ingredient when reconstituted to 50 ml

Primary Container Type:

Vial

Primary Container Content Quantity:

50.000 milligrams

Product Name:

Doxorubicin hydrochloride for injection usp 50mg vial

Special Features:

W/5.000 mg lactose, usp in ea ml; note: d

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A34300
