Physical Form:

Freeze-dried granule

Active Medicament Medicinal Strength:

200.000 milligrams erythromycin ethylsuccinate active ingredient

Features Provided:

Sterile

Primary Container Type:

Vial

Secondary Container Type:

Box

Primary Container Content Quantity:

Freeze-dried granule sufficient to contain erythromycin ethylsuccinate

Primary Container Quantity Per Secondary Container:

25 vial

Total Primary Container Quantity:

100

Total Secondary Container Quantity:

4

Special Features:

To be reconstituted to 5 ml

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A34300
