Saliva Substitute - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/6505-01-133-4607

Active Medicament Medicinal Strength:

Each 5 ml contains 0.83 mg calcium chloride, 4.02 mg dipotassium phosphate, 0.293 mg magnesium chloride hydrated, 2.2 mg m fluoride

monopotassium phosphate, 3.1 mg potassium chloride, 0.255 mg sodium chloride, 214 mg sorbitol, and not more than 2 ppi
present as sodium fluoride
Primary Container Type:
Bottle, plastic atomizer
Primary Container Content Quantity:
180.000 milliliters
Special Features:
Contains preservative and sufficient quantity of carboxymethylcellulose to adjust viscosity

Unit Of Measure:

Shelf Life:

Demilitarization:

N/a

Fiig: A45100
