Physical Form:

Powder

Protective Storage Feature:

Antineoplastic drug

Active Medicament Medicinal Strength:

10.000 milligrams mechlorethamine hydrochloride active ingredient

Primary Container Type:

Vial

Primary Container Content Quantity:

100.000 milligrams

Total Primary Container Quantity:

4

Product Name:

Mechlorethamine hydrochloride for injection usp 100mg vial 4s

Special Features:

Contains 90mg of sodium chloride; in a 20ml size vial

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A34300
