**Unit Package Quantity:**

4

**Features Provided:**

Bandage, adhesive, nonsensitized

**Usual Dose:**

0.3 mg released per day for 7 days

**Product Name:**

Clonidine transdermal system 7.5mg adhesive bandage 4s

**Overall Strength In System:**

7.5 mg clonidine active ingredient

**Exterior Container Weight:**

0.75 pounds

**Exterior Container Cubic Measure:**

0.051 cubic feet

**Exterior Container Quantity:**

12

**Special Features:**

A transdermal reservoir system w/a microporous polypropylene membrane that controls the rate of delivery of clonidine from the system to the skin surface; w/4 adhesive overlays

**Unit Of Issue Cube:**

0.003 cubic feet

**Unit Of Issue Weight:**

0.063 pounds

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A510w0
