Physical Form:

Freeze-dried powder

Protective Storage Feature:

Antineoplastic drug

Active Medicament Medicinal Strength:

1.000 grams cyclophosphamide active ingredient

Features Provided:

Thinner

Primary Container Type:

Vial, single dose

Primary Container Content Quantity:

1.000 grams of active ingredient

Total Primary Container Quantity:

6

Product Name:

Cyclophosphamide for injection usp 1gm vial 6s

Special Features:

C/o 750 mg mannitol; vial w/adequate volume toallow addition of 50 ml of diluent and adequate shake space

Supplementary Features:

Note: d

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A34300
