Electrolyte Injection - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/6505-01-360-5790

Pharmaceutical Vehicle Type:	
Aqueous	
Primary Container Type:	
Bag, plastic	
Primary Container Content Quantity:	
1000.000 milliliters	
Total Primary Container Quantity:	
12	
Administration:	
ntravenous infusion	
Product Name:	
Normasol-r	
Special Features:	
Contains the following amounts of electrolytes per liter; sodium 140, potassium 5, magnesium 3, chloride 98, acetate 27, and gluconate 23	
Shelf Life:	
N/a	
Unit Of Measure:	
-	
Demilitarization:	
No	
Filg:	
A45100
