Primary Container Content Quantity:

500.000 milliliters

Special Features:

Hcho molecular formula; 30.03 molecular weight; 1.03 vapor density; 52mm hg (37 degrees c) vaport pressure; 572 degrees f autoignition temperature; 37wt pci in water concentration; 10-15 pct methyl alcohole impurities; 96 degrees c boiling point

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A10000
