Features Provided:
Individually sealed
Controlled Substance Classification:
Schedule ii
Usual Dose:
25mcg/hr
Product Name:
Duragesic-25 (fentanyl transdermal system) 25mcg/hr, 5s
Special Features:
Duragesic-25 (fentanyl transdermal system) 25mcg/hr, 5s; route: transdermal; dose form: patch, transdermal 72 hours strength: 25
mcg/hour; dea controlled ii substance; individually sealed; contains five (25 mcg/hr) transdermal systems; store in original unopened
pouch; store up to 20 c to 25 c (68 f to 77 f); strict adherence to the recommended handling and disposal instructions on product insert is of
the utmost importance to prevent accidental exposure; exposure of fentanyl transdermal system application site and surrounding area to
direct external heat sources, such as heating pads, saunas, hot tubs and heated water beds may increase fentanyl absorption and result in
fatal overdose of fentanyl and death; patients who develop fever or increased core body temperature due to strenous exertion are also at
risk for increased fentanyl exposure and may require an adjustment in the dose of fentanyl transdermal system to avoid overdose
