Supply Package Type:

Wrapper

Physical Form:

Cake

Quantity Within Each Unit Package:

3.750 ounces

Special Wrapping:

Individually wrapped

Usage Design:

Fresh water

Ingredient Classification:

Medicated

Strength:

6.690 percent boric acid active ingredient and 48.630 percent dextrin active ingredient and 0.610 percent lactic acid active ingredient and 3.040 percent mineral oil active ingredient and 0.010 percent perfume active ingredient and 3.500 percent polyhydric alcohol active ingredient and 0.610 percent ethylene oxide polymers active ingredient and 0.730 percent carboxymethylcellulose sodium active ingredient and 23.710 percent sodium lauryl sulfoacetate active ingredient and 0.150 percent sodium dioctyl sulfosuccinate active ingredient and 6.080 percent urea powder, nf active ingredient and 6.090 percent water active ingredient

Floating Feature:

Not included

Lanolin Feature:

Not included

Abrasive Additive:

Not included

Special Features:

Non-irritating skin cleanser for soap sensitive skin

Reference Number Differentiating Characteristics:

As differentiated by unit package type, unit package quantity, quantity within each unit package, special wrapping, supply package type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T00400
