Physical Form:

Concentrate or liquid

Quantity Within Each Unit Package:

4.000 ounces

Usage Design:

Fresh water or salt water

Ingredient Classification:

Medicated

Strength:

1.000 percent hexachlorophene active ingredient and 2.000 percent salicylic acid active ingredient and 1.330 pct coal tar extract, water-miscible /equivalent to 0.500 pct coal tar/ active ingredient and 2.000 pct sulfur active ingredient

Lanolin Feature:

Included

Abrasive Additive:

Not included

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T00400
