Fabrication Method:

Compressed

Overall Length:

Between 13.97 millimeters and 15.00 millimeters

Overall Diameter:

Between 2.35 millimeters and 9.00 millimeters

Wire Insert:

Not included

Product Name:

Wick ear polyurethane tubular non-sterile plastic 48s

Special Features:

Non-sterile; for easy introduction into the external canal; expands when liquid is applied and conforms to anatomy of canal

Material:

Plastic polyurethane

Shape:

Tubular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T258-j
