Setting Time:

7 minutes

Product Name:

Bandage cast fiberglass impreg plas 4 in x 15 in set time 7 min 10s

Impregnation Material:

Polyurethane resin

Special Features:

Casting splint 4 in x 15 in c-splint; unbleached knitted stockinet covers splint; water activated, no assembly and mold and conforms easily; used for temporary immobilization of fracture, sprain or strain; orthoglass

Material:

Plastic, polyurethane foam

Material:

Plastic polyurethane

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T00600
