Diameter:

Between 9.000 millimeters and 13.000 millimeters

Length:

80.000 millimeters

Accessory Components:

Obturator

Design Designation:

Shiley

Material And Location:

Plastic

Surface Treatment And Location:

Any acceptable

Unit Type:

Tubular style

Features Provided:

Disposable and sterile

Special Features:

Removable inner cannula; pivoted neck plate; cuff w/pilot balloon; 39 french size

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T133-c
