Overall Height:

10.000 inches

Product Name:

Light endoscopic instrument fiber optic w/case 120v 50/60hz

Voltage In Volts:

120.0

Special Features:

60 hz, ac; in carrying case; with blower, transformer, dial control and 250 watt portable halogen illuminator; shall be a fiber optic light source and cable, suitable for use with the holinger, jackson and jesberg fiber optic bronchoscopes, laryngoscopes and esophagoscopes, and adaptable for use with nsns: 6515-00-403-9868, 6515-00-404-4046, and 6515-00-404-1347; light source shall be capable of continuous operation on a 115 volt, 60hz; a circulating air system with blower to dissipate heat; a variable transformer with dial control to permit voltage and light intensity from zero to full output.R; a 250 watt portable tungsten halogen lamp; shall have little or no extraneous light leakage and be supplied with a removable nose cone to accommodate the cables; shall be supplied with a ul approved 3-prong grounded plug and power cable; shall be supplied with operating instructions and service data; unit of issue: each

Frequency In Hertz:

50.0 or 60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T133-f
