Product Name:

Drainage unit pleural space/mediastinal 115v 50/60hz ac mobile

Exterior Container Weight:

50.00 pounds

Unit Of Issue Cube:

10.100 cubic feet

General Description:

High volume, low pressure, mobile 115 volt, 50/60 hz, ac; approximately 33 in. High, 20 in. Wide, 18 in. Deep; corrosion-resisting metal stand, with casters, equipped with tray or shelf to accommodate 3 bottles; consist of a cabinet containing an electric motor and air pump, variable speed control and pressure gage wwith 2 one gallon trap bottles, connectors annd tubing; capable of maintaining vacuum level from 3.5 cm h20 or less to at least 50 cm h20 and a high flow of at least 10 liters per minute; for use in maintaining negativity in the pleural space by rapid removal of air; post-operative use; not suitable for use in explosive atmospheres

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
