Design Designation:

Femoral ventricular

Shaft Eye Quantity:

12

Tip Type:

Open end and curved and pigtail

Core Fabrication Method:

Woven

Material And Location:

Plastic, polyurethane

Product Name:

Catheter cardio famoral ventricular open end/crved/pigtail tip 5s

Special Features:

8 french, aortic perfusion type, stainless steel wire reinforcement, 110 cm lg, curved/pigtail/tip, 12 eyes in terminal 5 cm of tip, 0.038 in.

Diameter guide wire, 1.43 mm id injector setting, box of 5

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A22100
