Design Designation:

Intravenous

Tip Type:

Open end

Core Fabrication Method:

Not woven

Diameter:

0.438 inches

Material And Location:

Rubber

Features Provided:

Nonsterile and reusable

Special Features:

5/16 in. I.D., 50 ft. Lg, reel

Style Designator:

Intravenous injection

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A22100
