Design Designation:

Mercier

Shaft Eye Quantity:

2

Proximal End Funnel Quantity:

1

Tip Type:

Coude

Core Fabrication Method:

Woven

Patient Size Designation:

Adult

Diameter:

16.000 french

Material And Location:

Yarn

Product Name:

Catheter urethral mercier b6 woven 16 fr adl coude tip nonsterile

Special Features:

Varnish or plastic compound coated; boilable; flared proximal end to fit connection or tapered tip of an irrigating syringe

Style Designator:

Woven

Specification Or Standard:

I type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A22100
