Overall Length:

5.000 inches

Handle Type:

Hollow and rectangular

Blade Length:

0.062 inches

Blade Width:

2.500 inches

Usage Design:

Opening the sac of the lens of the eye

Blade Type:

Sharp and single

Design Designation:

Graefe

Grip Type:

Smooth

Shank Type:

Straight

Product Name:

Knife eye cystotome graefe 5" o/a lg 0.062" blade lg sharp point

Surface Treatment And Location:

Nickel handle and chromium handle

Special Features:

Cystotome

Material And Location:

Steel blade and copper alloy handle

Shape:

Triangular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A523j0
