Overall Length:

30.000 centimeters

Handle Type:

Pivoted lever and nondetachable

Usage Design:

Firmly grasp and retain catheter during sheath removal

Design Designation:

Braasch

Unit Type:

Cannulated

Grip Type:

Finger ring

Joint Type:

Box lock

Jaw Type:

Oval

Jaw Grasping Method:

Serrated

Special Features:

Min. Required clearance 0.367

Material And Location:

Stainless steel and stainless steel handle and stainless steel jaw and stainless steel stylet

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A51710
