Overall Length:

36.000 centimeters

Usage Design:

Foreign body removal

Design Designation:

Lawsley

Unit Type:

Flexible shaft

Jaw Grasping Method:

Serrated

Special Features:

Jaw type: u-shape; min.Required clearance: 0.086 in.

Material And Location:

Stainless steel cannula and stainless steel jaw and stainless steel stylet

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A51710
