Needle Gage Number:

14 and 17

Component And Quantity:

Adapter, right angle, class observation tube, 2; needle, puncture, w/stylet, 1; needle, trephine, w/stylet, 1

Design Designation:

Turkel

Material And Location:

Steel, corrosion resisting stylet

Surface Treatment And Location:

Chromium over nickel hub

Cannula Length:

20.0 millimeters and 40.0 millimeters

Needle Type:

Puncture and trephine

Point Type:

Bevel and serrated

Product Name:

Needle set sternal puncture adap ra 14&17ga ndl 20&40mm cannula

Exterior Container Weight:

98.00 pounds

Exterior Container Cubic Measure:

5.100 cubic feet

Exterior Container Quantity:

288

Special Features:

For eternal marrow biopsies and infusions

Intermediate Package Quantity:

12

Unit Of Issue Cube:

0.001 cubic feet

Unit Of Issue Weight:

0.20 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T107-a
