**Diameter:**

Between 0.234 inches and 0.266 inches

**Length:**

9.000 inches

**End Application:**

FORS-UC-TIO-NAPP

**Design Designation:**

Yankauer

**Tip Type:**

Perforated and removable

**Hub Type:**

Hose connecting

**Material And Location:**

Steel, corrosion resisting

**Surface Treatment And Location:**

Chromium plated or nickel plated

**Eye Quantity:**

0

**Distal End Shape:**

Angular

**Product Name:**

Cannula laryngeal angular yankauer 9"lg 0.234-0.266" diameter brass

**Special Features:**

Removable tip on distal end; for suction and removal of body secretions and aspiration of the bronchial tract

**Specification Or Standard:**

lii type

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T133-c
