Diameter:

Between 0.234 inches and 0.266 inches

Length:

9.000 inches

End Application:

FORS-UC-TIO-NAPP

Design Designation:

Yankauer

Tip Type:

Perforated and removable

Hub Type:

Hose connecting

Material And Location:

Steel, corrosion resisting

Surface Treatment And Location:

Chromium plated or nickel plated

Eye Quantity:

0

Distal End Shape:

Angular

Product Name:

Cannula laryngeal angular yankauer 9"lg 0.234-0.266" diameter brass

Special Features:

Removable tip on distal end; for suction and removal of body secretions and aspiration of the bronchial tract

Specification Or Standard:

lii type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T133-c
