Design Designation:

Tuberculin

Scale Type:

Double

Scale Smallest Increment:

0.500 minims and 0.050 cubic centimeters

Capacity:

0.500 cubic centimeters

Plunger Marking:

Dark colored gasket

Plunger Thumb Rest Type:

Button

Special Features:

Sterile disposable glass syringe, w/luer slip tip and shield

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T133-b
