Accessory Components And Quantity:

Manifold 1; nebulizer 1; 39 in. Lg corrugated mainstream tube with 2 supply lines 1; 6 in. Lg corrugated flexible tube 1; mouthpiece 1; adapter 1

Material And Location:

Rubber diaphragm

Operation Method:

Compressed air line

Nasal Tip:

Not provided

Product Name:

Nebulizer medicinal rubber diaphragm plastic 50s

Exterior Container Weight:

38.00 pounds

Exterior Container Cubic Measure:

6.493 cubic feet

Exterior Container Quantity:

1

Special Features:

Plastic; disposable; with 49 ml plastic bottle, manifold, 60 in. Corrugated flexible mainstream tube with two supply lines, 6 in. Corrugated flexible tube, mouthpiece, and adapter; for use with respirator, 6530-00-181-7172; unit q type 50

Unit Of Issue Cube:

6.500 cubic feet

Unit Of Issue Weight:

38.00 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T133-k
