**Overall Length:**

4.500 inches

**Diameter:**

0.065 inches

**Design Designation:**

William house

**Tip Type:**

Open end and round

**Hub Type:**

Hose connecting

**Material And Location:**

Steel, corrosion resisting

**Surface Treatment And Location:**

Passivated

**Unit Type:**

Suction and irrigation

**Grip Type:**

Thumb-forefinger

**Curve To Distal Tip Length:**

4.000 inches

**Distal End Shape:**

Straight

**Product Name:**

Cannula ear william house 4 x 5 fr 2.75"

**Special Features:**

C/o 5 fr gage top tube w/finger plate and cut off hole; 4 fr gage lower tube; both tubes w/fittings at proximal end; 0.049 in. Diameter of other cannula; unit q type 1

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T133-c
