Overall Length:

4.500 inches

Diameter:

0.065 inches

Design Designation:

William house

Tip Type:

Open end and round

Hub Type:

Hose connecting

Material And Location:

Steel, corrosion resisting

Surface Treatment And Location:

Passivated

Unit Type:

Suction and irrigation

Grip Type:

Thumb-forefinger

Curve To Distal Tip Length:

4.000 inches

Distal End Shape:

Straight

Product Name:

Cannula ear william house 4 x 5 fr 2.75"

Special Features:

C/o 5 fr gage top tube w/finger plate and cut off hole; 4 fr gage lower tube; both tubes w/fittings at proximal end; 0.049 in. Diameter of other cannula; unit q type 1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T133-c
