Design Designation:

General purpose

Tip Type:

Fixed needle

Scale Type:

Single

Plunger Material:

Steel, corrosion resisting

Barrel Material:

Glass

Scale Smallest Increment:

1.000 microliters

Capacity:

100.000 microliters

Barrel Glass Type:

N51a alkali resistance

Plunger Marking:

Solid dark color

Barrel Tip Design:

Concentric

Plunger Thumb Rest Type:

Button

Special Features:

22 gage, 2 in. Lg needle, needle drawn 0.029 in. Od by 0.006 in. Id, tapered to 0.014 at point

Reference Number Differentiating Characteristics:

As differentiated by special featurws

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T133-b
