**Design Designation:**

General purpose

**Tip Type:**

Fixed needle

**Scale Type:**

Single

**Plunger Material:**

Steel, corrosion resisting

**Barrel Material:**

Glass

**Scale Smallest Increment:**

1.000 microliters

**Capacity:**

100.000 microliters

**Barrel Glass Type:**

N51a alkali resistance

**Plunger Marking:**

Solid dark color

**Barrel Tip Design:**

Concentric

**Plunger Thumb Rest Type:**

Button

**Special Features:**

22 gage, 2 in. Lg needle, needle drawn 0.029 in. Od by 0.006 in. Id, tapered to 0.014 at point

**Reference Number Differentiating Characteristics:**

As differentiated by special featurws

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T133-b
