End Application:

Bennett respiration unit

Capacity Rating:

39.0 patient

Product Name:

Nebulizer-manifold assembly inhalation therapy apparatus w/hoses 10s

Special Features:

Qconsists of nebulizerw/reservoir 5-15 capacity w/markings indicating medication level of 1 ml increments; includes two aerosol hoses approx 39 in. (99 cm) w/an f swivel adapter and cap or y adapter and cap, one aerosol hose approx 39 in. (99.1 cm) w/or w/o spirometer vial adapter, one aerosol hose approx 39 in. (99 cm) w/two supply tubes, and one breathing circuit valve; for use w/bennett ma-1 volume ventilator to deliver aerosol therapy; individually sealed; unit q type 10

Unit Of Issue Cube:

2.500 cubic feet

Supplementary Features:

D-day item for dod

Unit Of Issue Weight:

16.00 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23800
